Road Sense

Horse riders have a right to use the roads as a means of safe and enjoyable travel, but should also share a responsibility to understand the needs and problems of other road users. Riders would prefer not to use the roads, but often have little choice because it is their only way to bridleways and other facilities off the road.

Drivers take care!

It may not always be obvious to vehicle drivers why horses and riders are doing what they are doing, although there is normally a good reason.

Remember the following points, particularly whilst driving on roads where you are more likely to meet horses, such as country lanes.

- Take care on approaching blind bends . never go so fast that you cannot easily stop, there could be a horse and rider round the next one.
- Drive slowly past horses - give them plenty of room and be prepared to stop.
- Do not scare animals by using your horn or revving your engine.
- Look out for horse riders signals.
- Take extra care with child and other inexperienced riders and horses.
- Always treat horses as a potential hazard and expect the unexpected.

When you see horses on the road . always slow down!

Riders – look after yourselves!

Sometimes horse riders don't do themselves any favours on the road and endanger other road users, their horses and their own safety by not taking a few simple precautions or following a few simple rules:

- Always wear a riding helmet with the strap done up . remember it is compulsory for under 14s.
- Wear fluorescent or other bright clothing in daylight . you will be spotted sooner.
- Wear something reflective if you have to ride in very poor light or at night.
- If you have to ride at night or in poor visibility, make sure your horse has reflective bands above the fetlock joints and that you carry lights . white to the front, red to the rear.
- Make sure your tack, etc. is in good condition before going on the road.
- Give clear arm signals before moving off or manoeuvring.
- Keep over to the left of the road.
- Always ride in single file on narrow roads or bend approaches.
- Do not ride on footpaths, pavements or Redways.

ICE - In Case of Emergency

Eight out of ten people are not carrying information that would help if they were involved in an accident. Storing next-of-kin details in your mobile phone can assist the emergency services if you're unable to tell them who to contact.

How does it work?

Simply use your mobile phone book to store the name and number of someone who should be contacted if you have an emergency . but add the letters ICE in front of their name.

Hampshire Horsewatch Bulletin

(incorporating information from around the country)

1 March 2010

ICE stands for In Case of Emergency it is what the emergency services will look for if you are involved in an accident and have your mobile phone with you. This straightforward idea was developed by the East Anglian Ambulance Trust and is supported by Vodafone.

Getting started

On most mobile phones you simply need to select **C**ontacts and choose **A**dd New Contact then enter the letters **ICE** next to the name, followed by the telephone number of your next of kin. Make sure you choose a number that is easy to get in touch with. A home number could be useless in an emergency if the person works full time. We recommend that you enter daytime and evening numbers where this is possible.

What should I do next?

Make sure the person whose name and number you are giving has agreed to be your ICE partner. You should also make sure your ICE partner has a list of people to contact on your behalf, such as your place of work. In addition, they will need to know about any medical conditions that could affect your emergency treatment, including allergies or medication.

If you are under 18, your ICE partner should be your mother, your father or an immediate member of your family authorised to make decisions on your behalf. Friends and other relatives will not be able to make decisions for you if you are admitted to hospital.

Storing an ICE number makes it easier for everyone if you are involved in an accident. It only takes a few seconds, so do it today - please.

Suspicious incident In Romsey Area

A horse owner reported that 2 of his 5 horses had escaped from their field and had got onto a road. They were recaptured.

Upon inspection, the horses appeared doped and lethargic, (not just the two that escaped, all of them). It is not known if the owner had the horses examined by a vet to establish if the horses had been administered anything

Their tails had apparently had plaits in them (hidden underneath), their forelock was trimmed.

Another reason to post code your rugs

1. Recently in North Hampshire a horse escaped from its field at night and got onto a main road where it was involved a road traffic collision with a car. The horse was badly damaged and had to be euthanized by a vet who was called out. The horse was wearing a rug. Had the rug been postcoded the owner could have been identified and contact quickly. As it was, it was the next morning before the owners found out.
2. In Hampshire a horse went awol from its field, wearing a rug. Eventually it was found but again no post code on the rug. It was some time before owner was found.

Another warning

Horses wearing rugs can become immune to electric fencing so think about extra security for keeping your horse safe and secure

Plaiting

There are still incidents of horses manes being plaited in the county but not as frequent as before Christmas last year.

Winchester Crime Update in last 24 hours as from 04/03/10

In relation to the theft of the cattle crush from Old Alresford a couple of days ago. The crush itself is unusual in that it is one for long horned cattle.

There are two vehicles which were possibly involved:

- 1) A Ford Transit flat bed with a HiAb crane on the rear, VU55 WPD
- 2) A silver Ford, V701 HFL

4.3.10, 10.30am, seen at Bridgets Lane, Martyr Worthy, a tatty looking Ford Transit van, M813 LOV. This vehicle is believed to be involved in illegal metal detecting.

4.3.10, 11.15am, seen on the A32 Exton. A white Mercedes van on foreign registration plates. The vehicle had the bonnet up and three males, described as looking 'Eastern European' where flagging down cars and asking the occupants for money for diesel.

A bit of good news

Yesterday two males from Wickham and Shirrell Heath were charged with poaching offences after being caught on private land at Mayles Lane, Wickham by a Police patrol on the 26 December.

Suspicious Vehicle

At 4pm 25 February 2010 the following vehicle was seen in what was believed to be sus circumstances in the following location - Mt Pleasant Lane towards Lymington. Just beyond Setters Farm there was a white pick-up truck with an orange lamp on top of the cab parked in a field entrance. As informant drew near the vehicle it pulled

out and drove off fairly rapidly. This seemed a strange thing to do in a narrow lane with an oncoming car. May be innocent, but was odd behaviour and there has been some fly tipping recently in this field gates and closer to Scats.

It looked to be a 10+ year old pick up, and the orange lamp would make it quite distinctive! Something to bear in mind.

Title: NIGHT POACHING?

Issue Date: 3/2/2010

There have been an number of suspicious incidents in the Haven area in recent weeks which have involved lights being shone into trees on private property at night (possibly looking for roosting birds) . The persons responsible have also been disturbed looking in out buildings and have had dogs with them. One Farmwatch member was forced off the road by a blue Luton style vehicle after he had a torch shone into his face whilst driving. If you have any information regarding these incidents please contact Sussex Police on 0845 60 70 999 quoting serial 697 of 26/1/10.

There has also been a series of incidents in the Lower Beeding , Plummers Plain area where it is believed that night poachers have been disturbed. At the end of January they were disturbed and crashed their vehicle into a gate post making a getaway , the vehicle is believed to be extensively damaged and is a blue Suzuki Vitara V6 registration number N 905 XKK. It is believed that they were either after Badgers or Deer. Serial 1594 of 23/1/10 refers.

Sussex Police currently has 43 Wildlife Crime Officers (WCOs) working across Sussex, all of whom perform the role alongside their day-to-day policing duties. By the end of 2009 it is hoped that this number will have increased to around 60 WCOs.

Wildlife crime includes the persecution of protected native species of flora and fauna, the illegal snaring, trapping or killing of protected mammals, damage to the geophysical features of protected land, and the international trade in endangered species.

The Wildlife Crime team would love to hear from anyone who has any information about wildlife criminality in the area. Please contact them on 0845 6070999 or email directly to wcu@sussex.pnn.police.uk .

Operation Crackdown

Help us crack down on abandoned vehicles and anti-social driving.

Sussex Police are leading a pioneering partnership which employs the latest technology to provide an easy to use facility for Sussex residents to report abandoned vehicles or an act of anti-social driving.

Operation Crackdown is a multi-agency facility with two key aims:

- Reducing the amount of time vehicles remain abandoned (saving significant costs in the process).
- Targeting persistent bad drivers before they cause an accident.

We know there are problems in parts of Sussex. With your help we can tackle the inconsiderate people who continue to drive in an anti-social manner or abandon their end-of-life vehicles.

You can tell us about any abandoned vehicle or anti-social driving you've witnessed using the [Operation Crackdown](#) website.

What exactly constitutes anti-social driving?

There is no strict definition. However typical examples of anti-social driving might include speeding, thoughtless or reckless driving, under-age driving, drink driving, tailgating, using a mobile phone whilst driving, driving a vehicle which looks to be in an unsafe condition.

What should I do if I see an abandoned vehicle or someone driving in an anti-social manner?

- Pull over safely at the side of the road or ask a passenger to write down details.
- Note the vehicle's make, model, colour and number plate (which will help with police enquiries).
- When noting the location, use house numbers and road names to pinpoint where the incident happened or where you spotted a potential abandoned vehicle.
- Write a brief description of what you witnessed, while it is still fresh in your mind.
- If it's an abandoned vehicle, if possible take a digital picture of it.

When you get to work or home, visit the [Operation Crackdown](#) website to record your information. It only takes a few minutes! Your information will be analysed and appropriate action will be taken, if necessary, by Sussex Police.

Remember

Do not attempt to write anything down whilst driving. Don't add to the problem!

Submit a report

If you would like to submit a report using the Online Reporting Form click on the link below. If you are reporting an abandoned vehicle, please feel free to use the image upload facility to include a picture of the abandoned vehicle (images will need to be jpeg format and not more than 500kb).

For both abandoned vehicles and anti-social driving you will be asked to provide details about the vehicle and location. Please complete as many questions as you can - the more information you give us, the better.

Title: COUNTERFEIT AGROCHEMICALS

Issue Date: 10/2/2010

Police have received reports that dangerous counterfeit agrochemicals are being illegally imported into Europe. The counterfeiters are using well known brand names including Granstar, Harmony, Score, Reglone, Gaucho, Prestige, Raxil and Nurelle.

These counterfeit agrochemicals are then distributed throughout Europe including the UK to unsuspecting parties who believe the pesticides to be genuine. The chemicals that are being distributed are untested, unsafe and potentially hazardous.

Pesticides are believed to be packaged and sold as genuine products to farmers.

There are obvious health risks to farmers applying or storing the counterfeit pesticides. Do not purchase other than from your usual regular reputable sources and if in doubt contact the manufacturer directly to verify the source.

Rural Crime

A barn was burgled in Mouse Lane, Steyning between 4 and 5 February 2010 and a green Timber Wolfe quad and red childs engine buggy and battery were stolen. Police serial 252 of 8/2/10 refers

Farm Watch 4 February 2010

A burglary to outbuildings was reported early hours of 3 Feb in Buckland Newton area. This has been the news and many of you would have already heard it. The occupant disturbed the offenders and tried to block them in with his vehicle. It is believed the males made off on foot after crashing their vehicle.

Toller Porcorum Dorchester a farm outbuilding broken into sometime during the day yesterday. A trials bike was stolen. There were other trials bikes and a quad in the shed which remained untouched.

Stony Lane Burton Christchurch

"THEFT OF MEDUSA T1000 GENERATOR FROM INSECURE FARM BUILDING OVER THE LAST 3 WEEKS"

Discovered yesterday.

Cashmoor Road Gussage St Michael theft of heating oil from a domestic property. Tank filled up on Saturday. Discovered empty yesterday.

4 sheep believed killed by a dog. Milton Abbas Blandford 31 Jan/1 Feb.

A member in Verwood has had visitors in their yard overnight. Tractor door opened. Padlocks moved, horses spooked. Possibly a recky for later.

Many thanks

Farm Watch 8 Feb 10

General update for you

- Saddles have been stolen from a garage on a farm in Fleet Lane, Chickereil Weymouth discovered evening of 4 Feb. The garage was open at the time of the theft. 3 saddles hidden at the rear of the garage stolen.
- Church Road, Three Legged Cross Wimborne horse feed stolen from feed containers in a shelter 4/5 Feb.
- Ashmore electric poultry fence stolen from field 4/5 Feb
- Hardings House Lane, Sherborne farm outbuilding forced open discovered 5 Feb. Nothing appears stolen from within.
- Farm in Dorchester near Martinstown reports the theft of diesel. Almost a full tank containing 5000 litres stolen located next to the house. Discovered 5 Feb
- Caravan stolen from an agricultural yard in Holt Road, Three Legged cross discovered 5 Feb. Left there last Tuesday.
- Long Bredy, Dorchester Bale of hay stolen from farm by 4 males in a vehicle registration given as S89 PAB. This is a Devon registered vehicle and comes back to a blue Toyota Scarlet. However someone else saw this vehicle and thought it was a Vauxhall Corsa. Seen by someone else with straw sticking out of the back. One to observe but look for similar number.
- Massey Ferguson tractor in Dog Dean, Wimborne had its seat stolen but sometime since 8 Jan. Only just discovered. The tractor is 50 years old. Members may recall a while back someone was stealing parts to these very old model tractors so if you have one please reassess your security. Someone is restoring one and does not want to pay for the parts!
- Attempted theft of diesel from a farm in Cowgrove reported this afternoon. Padlock forced from tank in yard. Overnight. Does not believe any diesel stolen.
- Finally a Wareham member has asked if anyone has a quadbike trailer they would like to sell? If you let me know I will pass your details on.

West members were advised recently but a small van was routinely stopped last week full of fuel cans and pumping equipment. A victim phoned in later that day! Good result.

East Dorset Farmers there is a vehicle we are looking to eliminate from our enquires, one of many I might add, but blue BMW 316 AP51 ZDL. Containers broken into at Wattons Lane, Matchams discovered 8 Feb, stop checked in the area prior to that was this blue BMW! Mind you general building tools including a concrete mixer and diesel stolen so a van or lorry would have been needed.

Thank you for the other responses.

Regards

Anita Rigler

Farm Watch 11 Feb 10

- A member in Bere Regis reports a silver van, Vauxhall Vivaro DY56 VRK containing a male and 2 females on his farm. afternoon of 10 Feb wanting to buy logs (which the member does not sell).

You need to be aware of this vehicle especially if you have any building work going on on your farm! Incident 384 dated 10 Feb.

- A Massey Ferguson Tractor left disabled in a field in Gillingham. This is the summary from the crime report.

"this crime relates to the theft of a Massey Ferguson tractor left unattended in field adjacent to the B3081 crossroads at West Bourton. Victim secured tractor by disabling it in that he removed vehicle battery and took it home with him and disconnected the cables from the starter motor. He also dug the front loader into the ground in front of tractor. Only tenuous information he can give re any possible suspect is that at about 1330 hrs yesterday 9 February, a male driving a car transporter with white cab and beaver tail on trailer part stopped and spoke to him asking if he would be interested in renting his field or part of it to male to keep horses on. Male described as white, mid-30's clean shaven, well built, 5'9" local southern accent, short scruffy dk brown hair wearing working clothes."

- Bloxworth Wareham dark Subaru looked very suspicious yesterday afternoon. Registration given as L554 VBD but this refers to a Citroen which may have been scrapped. Just for information.
- More sheep missing. 40 out of 500 taken from a field in Long Crichel discovered 9 Feb. There does seem to be a lot of sheep going missing at the moment.
- Theft of a alu tipping trailer from Crawford Bridge Spetisbury 8/9 Feb.
- Winterborne Clenston. Attempted theft of a trailer which was locked onto the back of a vehicle. Neighbouring trailer then stolen. A generator was stolen from the attached trailer. However, the flat bed cover on the pick up was also forced open
- Salisbury Road Blandford Truck broken into. "the pickup has a two piece door, top opens up and the bottom becomes a tailgate, the top has had the two locking pins forced and tailgate dropped, the items then removed two Stihl chainsaws one has 'no.2' on the top and the other plain both orange. One Stihl bush cutter and harness, Tifor winch and respective cable on a role. " 8 Feb 10.

Farm Watch 16 Feb 2010

As suspected I think we may have the start of a crime series regarding caravan thefts.

East Dorset members will recall a caravan was stolen recently from an agricultural yard in Holt Road, Mannington recently. I now have a report of another caravan stolen from a farm in Sixpenny Handley believed night of 14 Feb. A Eddis EX300 cream with green stripes. Single axle. Tyre tracks look like a 4 x 4.

Historically all our caravans have gone from East Dorset close to the A31 and start this time of year but security is quite tight now for these sites and locations so please all reconsider the security of your vans on site. I have asked the crime reduction officer to look into this.

A member reported this afternoon 16th a suspicious green Volvo S699 JOD in the grounds of a large private house in Cranborne containing three suspicious males.

Do you remember the silver Vectra before Christmas which changed to a blue K reg Landrover? Now driving a green Volvo!!

Poaching and outbuilding security needs reassessing!

Yesterday in Wimborne St Giles a member was seen trying to gain entry to an estate gate on the B3081 and were

Theft of household fuel from a farm in Caundle Marsh Sherborne 15 Feb.

Quad bike stolen from Spetisbury 12 Feb but recovered down a dirt track. Perhaps disturbed on returning home? 2 males were seen in a silver car on the farm earlier asking for scrap batteries. The quad would have been seen.

Electric fence unit and battery stolen from a field in Anderson 13/15 Feb.

Hay stolen early hours of 13 Feb Up Cerne Dorchester believed by 2 Landrovers with trailers. No further details

Swanage jockey wheel and jacking mechanism stolen from a trailer in Valley Road, Swanage. Hog roast machine also stolen from neighbours.

2 more sheep stolen from a field in Winterborne Stickland 15 Feb. I have put in a request for all livestock carriers, including horse boxes and trailers to be stopped at night and checked for sheep.

Heating oil stolen from Beaminster 250l 11 Feb. Also Holwell Sherborne 18 Jan to 14 Feb and Dewlish 1000L between Dec and 15 Feb. A tanker was heard one morning but not investigated. Cannot say which day.

2 quad bikes have been stolen from the Sherborne area overnight

Oborne. No details available as yet but I understand numerous items were found in a field nearby which are being examined.

Purse Caundle quad stolen from a secure outbuilding and taken across fields.

A suspicious white flat bed was driving up and down a track in the early hours of this morning to a farm member in Milton Abbas. No further details available. This was about 0400 hrs.

A similar report from Bere Heath Bere Regis. White Transit flat bed. Occupants got out of the vehicle about 4.45 hrs this morning on the farm and when the lights went on jumped back in and made off.

In the Critchel area of Wimborne a suspicious silver/steel grey transit van was acting suspiciously registration KU53 OZM. This comes back to a white Transit from up North and registered to a company so not sure if the registration number was slightly out or this is the same vehicle and sold on.

A 6ft jemmy and a Dewalt Battery Drill was found stolen after they had left although there is no evidence at this stage to say they have stolen it.

A break in at stables in Abenhall, Mitcheldean, Gloucestershire.

Incident 45 10/02/10- Gloucestershire Constabulary 0845 090 1234

The thieves seemed to have been picky in what they took - taking a riding hat in a Derby House protective bag, some leather gloves and 3 (quite distinctive) headcollars and lead ropes.

The hat is a well used Charles Owen basic skull cap with a faded black silk and silver/black hi-viz band and the gloves light brown soft leather.

The rugs include 5 turnout rugs (1xbrand new 6'9" Saxon pale brown lightweight, 1x 6'6" /9" pale blue weatherbeeter high neck and a navy/red trim thick stable rug).

1 x purple 5'6" winter turnout with neck with 'ROMY' written on the chest area (very faint) and 2x Shires Highlander rugs (tarten) with necks (6' and 6'3"). The 6'3" has a repair on the hind quarters and the 6' has the owners name (Crocker) and postcode marker on the inside label.

I would be grateful if the Police could be contacted if anyone is offered any of the above, Gloucestershire Police 0845 090 1234 quoting incident 45 10/02/10.

Farm Watch Incident Update - following the theft of a Mitsubishi Shogun from Pontac Farm, New Marske on Tuesday 16th February 2010 police intelligence indicates there is a team of criminals from Durham with contacts in North Yorkshire and Cleveland driving around farms at all hours of the day and night looking for vehicles to steal. It is strongly suggested that vehicles are NOT left unattended, at anytime, with keys in the ignition.

Overnight 20th/21st February 2010 an unknown person attempted to steal a Man Trucks horse box from Saltburn Riding School, Saltburn. Entry was via an insecure cab door and damage was caused to the steering column and ignition.

A blue Ford Transit van NU03 XZZ with three male occupants one wearing a HI VIZ vest were seen acting suspiciously in Dunsdale Village, Guisborough.

A small trailer with tools, shovels, picks and a jerry can was stolen from the Sita UK Compound, Dunsdale, Guisborough on 15th February 2010.

Crime Information

Spate of attacks at Hill Top Farm, Bristfield Road, Bristfield.

The above address has been subject to a number incidents of thefts from a horse trailer in a week, whereby event clothing and hats were stolen and finally the trailer hitch has been removed. This latter act the owner believes is an act preparatory to the final theft of the trailer. On one occasion snow revealed the Farm had been approached on foot following the offenders parking a vehicle in a lay by on Fixby Lane from behind the Farm.

Unexplained Incident

I have also been sent this by one of our members - Please keep your eyes open if you live in this area.

I wanted to inform you of a suspicious incident concerning a friends horse last Friday night/early hours Saturday morning (5/6th Feb). My friend keeps her horse and two ponies at her parents house in Hall Bank Tydd St Giles, Wisbech, Cambs. At approximately 0400 hrs on 06/02/2010 the neighbours were woken up by a horse whinnying

Hampshire Horsewatch Bulletin
(incorporating information from around the country)

1 March 2010

very loudly and sounding in distress. They rang her parents up who went to check the horses. The two ponies were distressed and galloping up and down, but the horse was nowhere to be seen. He was found at the bottom of a water filled dyke running between their property and the road. It would appear the horse had barged through a barbed wire fence and down the steep bank approx 12-15 ft deep and ended up in the dyke at the bottom. The horse had to be rescued by 4-5 fire appliances with specialist equipment. Luckily the horse wasn't badly injured, mostly cuts, bruises and shock.

It is believed by the owner that the horse had been forced into the corner and people unknown had tried to catch him. (Luckily he has never been easy to catch.) There does not appear to be any reason for him to have gone through the barbed wire and down the bank. The horse is used to grazing in the field and is aware of the fence and the steep bank. Also if he was just trying to get away from a wild animal of any kind or even someone lamping in the field he could have easily run into another part of the field as it is approximately 12 acres. It was also noted by the owner that the ground was very cut up along the bank which it hadn't been the previous day. Which looks like the horse had been galloping up and down a lot.

The owner spoke to another owner of a horse who keeps hers in a field behind where her horse is kept. The other owner on checking her horse the following day noticed he was quite nervous and had got sweaty during the night which he has never done before.

As there was nothing to prove this was an attempted theft it wasn't reported to the police. However I think it is worthy of note. We have tried to inform as many people in the nearby area who may be concerned but thought it should be brought to your attention.

Metal thefts - Suffolk

Businesses and members of the public are being urged to be vigilant and report any suspicious persons or vehicles to the police, following a number of thefts of metal and associated items over the past two months.

In December 2009 there were at least 30 instances of theft of items such as scrap metal, cabling, lead from roofs, car batteries and components and pipes and plumbing supplies. So far in January 2010 (to 27th) there have been at least 46 reported thefts across Suffolk.

The value of metal has increased over time, and people should be vigilant in protecting their property and that of their neighbours. Owners of properties vulnerable to metal theft are urged to make their buildings and sites as secure as possible to keep criminals out. Where possible it is advised to use security lighting to deter thieves, and CCTV can also deter as well as capturing images of offenders and their vehicles. All gates and entrances to premises should be properly secured. Valuable property can be marked and photos taken, to identify it if its recovered. Industrial Watches are in place in many areas, contact your Community Watch Liaison Officer on 01473 613500 for further details.

In some cases several thousand pounds worth of metal in its various forms has been stolen from premises, which takes a considerable amount of time to remove and a vehicle to transport. Any sightings of persons acting suspiciously near building sites or any property with lead roofing, or cold calling looking for scrap metal should be reported to police.

Do you own a horse with a UK passport?

If so, your horse should be on NED and there are very good reasons why you should get yourself associated

1) Protect yourself and your horse

In the unfortunate event of your horse being lost, stolen or going missing on loan, NED can immediately help you through its UK-wide lost/stolen register. This has already helped many owners recover their lost/stolen animals and if you have a look on the website, you'll see the stories.

2) Don't forget your horse's important dates

You can now set up details of your horse's regular treatments on NED - whether its vaccinations, dental treatment, worming or a new set of shoes. Key these into NED and you'll get an automatic reminder.

3) Unlimited reports on your own horses

NED offers a range of reports on all horses including pedigree information, progeny details or life-time performance across all major competition disciplines. These reports change over time as NED gets updates from a wide range of partners. Now, you can get unlimited access to reports on horses you are associated with.

What to do - step by step ...

- 1) find your horse on NED and check that the basic information provided to NED by your passport issuer is correct, complete and up to date
- 2) associate yourself with your horse by clicking on "associate yourself with this equine"

Hampshire Horsewatch Bulletin
(incorporating information from around the country)

1 March 2010

- 3) check that all your horse's security identifiers are correctly recorded; if a freemark or microchip number is missing you can add it yourself
- 4) upload a clear photo and a detailed description of your horse
- 5) set up reminders for all those important equine dates - vaccinations, dental, saddler, worming or farrier. ÷
- 6) see what reports are currently available for your horse. If there are any, you'll be automatically offered the option of unlimited access for as long as you're associated with that horse. Remember that NED receives regular data updates from all its partners so both the quantity and content of available reports will change over time, this option allows you to re-run and refresh your copy of the available reports as often as you like.

If you own a horse without a UK passport . you can now get it on NED! Click here to download the form:
