Editorial Comment

Dear All

Apologies for the formatting of the bulletin but I have yet to find someone that can sort the pages out!! In timeõ ...!!

You will note that the information supplied and entered below in the body of the bulletin is yet again a snap shot of what is happening around the country. We are only getting information from our usual contributors. I do not believe that those counties who do not contribute are equine crime free more probably that no-one from the relevant police force and or Horsecatch scheme is collating and forwarding the data.

You will have noticed that the bulletins will contain information about rural crime as well as equine crime.

Thanks to those that regularly forward information.

Remember those people who will steal your trailer, tack and even the horse will just as likely to be out stealing cars, plant, etc. another day. Thieves will steal to suit their buyers/handlers requirementsõ õõ ..remember thieves need to turn your property into cash and in the long run you may buy stolen property!!

And now for something different

The below was received and copied below for your information:-

You have probably heard by now about EIA (Equine Infectious Anaemia) found in 2 horses in Wiltshire. Please see below some advice from the BHS about the outbreak for your info.

You may have heard by now that two horses in Wiltshire have been humanely destroyed having tested positive for antibodies against Equine Infectious Anaemia, or Swamp Fever. Obviously this is bad news but it is important to keep it in perspective and not worry unnecessarily. There is already a lot of unhelpful and incorrect speculation flying around on the internet so the BHS felt it would be helpful to provide a few facts.

EIA is spread by insect vectors (or potentially contaminated veterinary equipment) NOT by close contact between horses. The cold snap will have ensured that insect vectors are few and far between and those that have survived will not fly far. Standards of veterinary hygiene are such in this country that contaminated veterinary equipment should not be an issue. Hence, transmission of the EIA virus between horses will be very difficult.

The two animals that tested positive were imported into this country. There is absolutely no evidence to suggest that EIA has been successfully transmitted within the UK. The horses have now been destroyed so they are not acting as a reservoir to potentially infect others.

It is extremely positive that these horses were identified (they were not displaying clinical signs). This goes to show that import checks are working.

The premises at which the affected horses were identified are under restrictions and Defra are conducting a full epidemiological investigation.

We are not seeking to downgrade this outbreak or denigrate anybody's fears, this is obviously very serious news. However, it is exceedingly likely that this outbreak will be contained and the threat to other horses really is small. The best advice that we can give is to read up on Equine Infectious Anaemia and familiarise yourself with its clinical signs. Remain vigilant and if you have any concerns contact your vet immediately. There is useful information

about EIA at the following links:

http://www.bhs.org.uk/Horse_Care/Campaigns/Exotic_diseases/EIA.aspx

<http://www.defra.gov.uk/foodfarm/farmanimal/diseases/atoz/eia/index.htm>

This link will take you to the latest news from Defra:

<http://www.defra.gov.uk/news/2010/100119a.htm>

It is important to be informed and prepared but the evidence strongly suggests that this occurrence will be of no threat to the vast majority of UK horses, even those local to the outbreak.

For more information, or to discuss any concerns, please do not hesitate to contact BHS Welfare on 01926 707804 or 01926 707791.

Stolen horses from Belgium.

If you open the website link below and ask for English - you will be able to view stolen horses in Belgium over the last few years. I know that some think - why are we looking at stolen horses from Belgium, but we have to remember that they are our neighbours and it would be relatively easy to transport a horse across the channel? With your help we may be able to locate them.

Theft and Crime Prevention warning

It is known that horses do enter the UK from the continent and there are cases where they have been stolen or their history is suspect. For your peace of mind if there is the slightest suspicion that a horse you are interested in has come from abroad please seek help in having it checked for a microchip. If a micro chip is discovered seek assistance in getting the source of the number identified. Unfortunately you must remain suspicious. Seek the help from your Horsewatch or police

The above crime was referred to in the last bulletin which came out on the 15 January 2010. The information below is additional to earlier descriptions

2 February 2010

Full description of the harness that was stolen, including some identifying features. It was certainly marked in indelible black ink and can be identified if found.

1. The 4 sets of working harness were from www.aaronmartin.com and was no. 295 team leather work harness with no. 510 working haymes. The harness is easily identified in that it has an indelibly marked initial of each horse on it which has been well-oiled in over the past three years and would be difficult to disguise. Also, the saddles on the harnesses have had the rivets removed which have been replaced with bolts in order to carry bells. The collars were adjustable leather field collars no. 72a again with indelibly marked and oiled in initials of the horses. The letters used for the initials are - O, S, J and R. All the leather harness is black and has silver pieces.
2. The 2 sets of lightweight competition harness was also from www.aaronmartin.com, no. 250010 and was double marathon harness made to order in granite (which was like a dark brown synthetic material - fairly distinctive - most harness I've seen is black). It also has indelibly marked initials, R and O, and also on the outside horse tracer a label, SUFFOLK (which may have been removed if the thieves thought about it)
3. The 4 bridles were black leather with silver studs across the brown and silver disks on each side. The Myler bits were 2 in size 32" and 2 in size 36".

Information sought

Verderers in the New Forest are offering a reward of £1,000 for information after an **emaciated horse was found dumped** last week.

The dead horse was found on Monday 11 January by the agister for the Ocknell area of the forest.

The **coloured cob** is thought to have been about **three years old** and was reported by the police to have been in an **"appalling condition"**.

The mare was emaciated and police suspect she may have been suffering for some time. There was **blood around her head**.

Tyre marks found in the snow near to the dumped horse indicate that the vehicle used to transport the animal had double wheels on the rear axle.

Dumping any animal in the Forest, whether dead or alive, is an offence, punishable through the magistrates' court.

The Verderers have decided to offer a reward of up to £1,000 for information that leads to the successful conviction of the person responsible.

Anyone with information should contact Hampshire police on: 08450 454545 or call Crime Stoppers 0800 555 111

Farmwatch information Jan 2010

Dear all,

Please find attached some recent info re farmwatch.

The past month has seen mixed blessings. The period of snow was good for crime figures as even the criminals don't like the cold and also can't move freely around.

However, since the snow has gone they seem to have been trying to catch up on lost time. We have had a larger number than usual of outbuilding break ins mainly at residential homes. Please do re check your security and make a note of what you have and record serial numbers and markings on stealable items.

Our main problems have been a rise in thefts of 4x4 vehicles of all makes from Suzuki's to Landrovers. We have also had a rise in theft of trailers, specifically I for Williams. Since the 7 January five trailers have been stolen across the whole area.

Again calls we have received have related to vehicles touting for scrap? Adjoining Police forces have reported thefts of diesel and heating oil. These have been from Sussex and Dorset but we have had a similar incident in South Warnborough.

On a better note we arrested 3 males attempting to steal a digger from Hartley Wintney. We recovered the stolen digger, a stolen low loader lorry and a stolen BMW car. We have also linked these males to burglaries in the Berkshire area.

Also a stolen trailer with a 4x4 on the rear was recovered by Police 2 miles from where it was stolen in Hartley Wintney. On going enquiries appear to link to a potential known thief.

If we do not have your mobile phone number or you have changed it please let us know so that we can keep you in the loop. The number, as with all your details, is not shared openly.

Please remain vigilant

Best wishes

Mick Ames.

to go and where you think we are falling down.

Found on the New Forest

Now we have three unidentified geldings! These at least are in good condition. All fat and well. Found at Hale.

Apparently they have been there since just after the drift in October and the Agisters have been making enquiries locally, hoping someone would say they were theirs.

Regrettably that hasn't happened and so they have been caught yesterday and taken to a place of safe keeping. No brands and no microchips of course. Descriptions as follows:

All mature ponies. All quite nice.

1 x big bright chestnut with a longish star. About 13.2hh.

1 x slightly smaller dark bay. Very small bit of white round hind feet.
13.1hh ish.

1 x smallish liver chestnut. 12.3hh ish.

All fairly quiet. All loaded into a trailer without a problem and seem to know about stables.

Any suggestions for identifying their owner(s) gratefully received!

We wonder if it is a case of someone having moved into the area who thinks they can just turn ponies out on the Forest.

We will have to advertise them.

[THAMES VALLEY COMMUNITY MESSAGING - Aylesbury Vale - A 01/024]

This is a Community Message from Aylesbury Watch Office on Friday 22 January 2010.

- A burglary has been reported at a farming location on Whaddon Road, Nash between the 18 to 19 January. Offenders searched cupboards and tool boxes around tractors on site and stole cans of animal stock spray. Several previous offences have been reported at the same location.
- And a suspicious vehicle was sighted in the vicinity of an equestrian yard in Stratton Audley (Bicester Police Area) around 8am on 21 January. A white van (no other details available at this time) was seen to park up in a layby near the drive to the premise. Two males walked up to the premise and were seen to try car doors at the location.

Please remain vigilant and report any suspicious activity around rural locations to the Police on 0845 8 505 505 - if a crime is in progress dial on 999. Where possible obtain a description of any persons, along with make, model, colour and registration number of any vehicle.

1. Pony Thieves?

In the early hours of this morning 23/01/10, a vehicle attempted to gain entry to a paddock in Whitchurch Hill near Pangbourne. They lifted a 5 bar metal gate from its hinges but could not remove it as there was a chain around the other side. An electric fence containing ponies was also damaged. A resident nearby reported headlights of a vehicle turning in their driveway at about 2 am.

2. More Mane Plaiting

No date given

Two horses kept in a field at Cadmore End, which is visible from one of the bridges over the M40 Motorway, have been found today with plaits in their manes. The owner is satisfied that these have been deliberately plaited by an intruder. He has photographed the horses in question, with close-up photos of the plaits. Both horses are very biddable, and likely to allow a stranger to handle them.

Deer Poaching

The occupants of a **White Peugeot 306 Estate Y173 SLB** were caught shooting at deer and other ornamental animals from a public highway on a private estate at Fawley, near Henley, yesterday afternoon (Sunday). They were using a rifle. Please report all sightings to the police and to us **immediately**.

Suspicious Ford Transit Lorry

Some people were caught snooping around an estate office at Hambleden, near Henley, this afternoon. They were looking through windows etc. When approached they claimed to be looking for scrap metal. They were travelling in a **white Ford Transit 190 LWB dropside lorry N843 JYG**. There were two occupants, both male, dark hair, one with an English accent. The vehicle was full of scrap metal.

Andō ã .

Suspicious Ford Transit Lorry seen again

The Ford Transit lorry reported in Dogwatch 417 has been seen again today at 12.35hrs hurtling through Ashampstead. The occupants were acting suspiciously and looking into properties. The occupants claim to be looking for scrap metal. It is a **white Ford Transit dropside lorry N843 JYG**.

Title: TACK AND GENERATOR STOLEN.

Overnight of Thursday 14 January and Friday 15 January, an outbuilding was forced open by cutting a padlock in Westergate, near Chichester. A generator was stolen.

At the same time the tack room in the same yard was forced open, again by cutting the padlock and a full brown suede sixteen and a half inch saddle was stolen. A nearby horsebox was opened and searched but nothing stolen from it.

Please be aware that thieves are still operating around livery yards. If you are offered property that may match the above, please contact Sussex Police quoting crime number WA3/003741/10

Title: BREAK TO BARN BUILDINGS

Date 24 January 2010

Break to barn buildings in Cooks Pond Road, Milland. Two chain saws and a telescopic pole chainsaw stolen.

Offenders tried to steal quad bike but could not get it over a fence at end of field. Keys to a mini-digger, Ivor Williams trailer and tractor also stolen so it is possible that offenders will return.

Please be vigilant and report all suspicious vehicles and persons.

Title: STOLEN TRANSIT HIAB

A distinctive light blue Ford Transit flatbed with orange roof light and orange coloured Hiab registration number K926 MOU was stolen from a wood yard just off the A272 between Coolham and Buck Barn between 5pm and 8.30pm yesterday 31 January 2010. The offenders had to move a number of vehicles on site to gain access to this vehicle and will have been at the yard for some time. If you saw anything suspicious or have seen this distinctive vehicle please phone Sussex Police on 0845 60 70 999 quoting serial 1320 of 31/1/2010.

This is a Ringmaster message from Bedfordshire Police. Please pass the details of this message, onto any friends and neighbours.

A theft has taken place in the High Street, Elstow, Bedford, between 1:00 in the afternoon, and 9:00 in the morning, on 17 January.

An offender entered the field, possible by climbing over the fence. The offender removed 2 horse rugs from the horses, an electric energiser, and 20 fence posts.

Earlier in the week, an elderly female and male, arrived at the field in a small white van, and was throwing hay over the fence. This was thought to be suspicious.

Bedfordshire Police ask local residents to be vigilant, and to report anything suspicious immediately.

Contact Ringmaster on (01234) 275288 { or email Ringmaster@Bedfordshire.pnn.Police.uk } for a free property marking kit.

Farm Watch East Dorset 18 01 2010

We have two strange reports from Horton Way Verwood and Alderholt of wheels and tyres stolen from Defender 4 x 4 vehicles. Both were overnight 15/16 Jan.

In addition on 17 Jan a member reported a suspicious 4 x 4 near a farm left with its engine running at lunchtime. This was a stolen vehicle from Wiltshire, who still has a series of 4 x 4's being stolen so you all need to be aware.

2 February 2010

The vehicle has been recovered for its owner.

Not sure whether they are all connected so provided for your awareness.

Farm Watch 20 Jan 10

I have some information for you!

Occupants of Blue Transit MT53 AOA was recently broadcast to you for observations. Occupants had recently been arrested for going equipped to commit crime.

Wilts are lost staddle stones yesterday. On returning to Dorset this vehicle was stop checked and inside was several staddle stones and sack trucks etc. 1 male was arrested and the vehicle has been siezed. So it may be one you can cross of your list until I get to hear what they will replace it with. There is further investigation ongoing with these offenders which I hope to update you in the future.

However. Do you remember this vehicle was in company with an ice cream coloured Subaru Pick up type vehicle? I am not clear how this vehicle got noted, whether it was with it when stop checked but the Transit appears to be in company with a Silver Subaru 282 4x4 registration A484 TYB. This might be the registration number.

Also mentioned for some reason is a black Landrover K291 OMR and a blue Iseki pick up K113 XFX.

Just letting you know the update whilst I try to find out more information.

Melbury Sampford Dorchester quad bike stolen from an insecure garage overnight 19/20 Jan

Tarrant Monkton Burglary to garage on a farm 2 chain saws stolen. Discovered this morning.

Good news anyway about the arrest

- A vehicle came to our notice yesterday morning in the Ferry Bridge area of Weymouth and I have a feeling that I have mentioned this one before but unfortunately I just do not have the capacity to research it today.

White Fiat Ducata Panel Van Y104 KFB

However information is suggesting that this is a vehicle you may wish to be observant for and call us if seen as we wish to eliminate this vehicle from our enquiries in relation to the theft of quad bikes throughout the country.

It is not local. It will come and go, as it has been doing, so please put this one on your dash board. The other vehicle (S reg Transit) has gone very quiet. Is this a replacement? You can use the 999 system for this one but only if we have a chance of stopping it please. Just quote the registration number. Please use the 01202 222222 for historic sightings, which are all valuable to us.

- Break to a tack room in North Chideock 26/27 Jan. £4000 of tack stolen. Location is isolated. However on the

2 February 2010

incident it mentions a resident nearby did disturb occupants of a red or maroon vehicle that day trespassing but I have no further details and this is not even mentioned on the crime but I thought I would throw it in.

- Tarrant Crawford red Transit containing 4 males acting suspiciously yesterday. M678 JPU (no trace) however closest match is a red Transit minibus M678 JRU. I believe this vehicle has been circulated to you before. You do all need to note this one as well.
- Outbuilding on site in West Milton Bridport broken into stealing power tools 26/27 Jan.
- Beaminster, regarding the message sent to members to keep an eye out for a black Fiat, registration AK57 YYU, with a male purporting to be Italian with an Italian accent selling chainsaws. The male was arrested and has been charged for being in possession of counterfeit goods and attempting to sell them. Many thanks for all the information that came through from members about this male and vehicle.
- Yellow Lane West Milton Bridport theft of electric fence batteries from derelict building discovered 25 Jan.
- Piddlehinton shed broken into 25 Jan. Second time in 2 weeks.
- Charlton Marshall theft of Ifor Williams Trailer discovered 23 Jan.

Farm Watch 1 Feb 2010

- An attempted theft of a quad bike has been discovered early this morning 1 Feb. This victim has recently lost a quad when that white "S" reg transit had been to their farm.

It was well secured behind a tractor and other machinery but a screwdriver had been used to try to get the tractor to start. All attempts failed and nothing was stolen.
- Some members have been phoning in about white Transit S823 KCF. I think they were thinking it was the one stealing the quads. Whilst we were keeping an eye on it (local to Dorset) there was nothing specific I felt I could inform you about or that would affect you. However for those of you who have been calling in the vehicle has been siezed and a male arrested for various motoring offences and the fact that the vehicle contained red diesel.

Your calls did count and raised awareness of the vehicle as we thank you for that.

- This is odd. 39 sheep found marked in a field in Stoke Abbott near Beaminster. They were marked as if they were ready to go to market. Very strange. None are missing.
- Compton Abbas top of a staddl e stone stolen 26/26 Jan.
- Car trailer stolen from Chaldon Herring.
- Theft of scrap metal from a farm in Thornicombe 22/26 Jan.
- Isolated barn broken into in Piddlehinton discovered 29 Jan. padlock smashed. Lead and copper wiring stolen.
- Briefly a member in Trigon Wareham had a call from a male who wanted to buy a horse they had for sale. Tried a well known scam that he wanted to pay by bankers draft for an amount well in excess of the value of the horse or pony with the difference being refunded. This is a well known scam, usually using Western Union cheques. Usually they approach B and B's and Guest houses but this is a first for selling an animal. I am sure you would not get taken in but I need to tell you just in case.

Suspicious Incidents

On three separate occasions between the end of December 2009 and the beginning of January 2010 - Two horses and one pony at stables in the Tetbury area of Gloucestershire have been found in their fields with stab wounds to their legs.

Two of the horses received deep stab wounds just below the stifle. An examination from an attending vet believes that these wounds could be the result of a malicious attacker, although we have no evidence to prove this. An area search of all the horses fields have proved negative for foreign objects or damaged fencing etc.

If you have any information about these attacks please call Gloucestershire Police on 0845 090 1234 quoting incidents (168 of 27/12/09) & (83 08/01/10) or leave a message for Pc 695 Melanie Campbell to contact you!

Stolen horse trailer

Last Friday 2 men in a 4 x 4 pickup with a big cab called at a pub in Littledean, Gloucestershire and asked who owned the horse trailer in the car park. (It belonged to the pub.) They then asked if the pub would sell it. (which was no.) The caller said they were not Irish and also not a local accent. On Sat night between 10.30pm and 9.30am next morning it was stolen.

The horse trailer is a Mid Blue Ifor Williams HB 505 front and rear unload, it also had a Beige Roof. Chassis number SCK400000W0243435 with a Coupling number 210045006. It had a big wheel clamp on it covering a wheel nut and had a integral key lock on the ball hitch.

Should you have any information please contact Gloucestershire Constabulary on 0845 090 1234, quoting reference 149-17/01/10.

HorseWatch Meeting

Thank you to everyone who attended the meeting on Tuesday 12 January at Queensbury Conservative Club despite the bad weather (Current membership 222). The next Horsewatch Meeting will take place between 7.30pm-8.30pm on Tuesday 23 February at Queensbury Conservative Club.

Road Safety Signs

Six new triangle horse signs have been promised by Bradford council for the Queensbury area as Horsewatch members get involved with the Police Speed Gun Days of Action. Sergeant Roger Moore says "one of our local priorities is speeding, dangerous driving and inconsiderate parking. Public confidence is raised when members of the public see us out and about on high visibility patrol. We are working hard to combat these problems by involving members of the public and local children in Speed Gun Days of Action. Officers will be outside schools and local communities- it is a great way to encourage drivers to slow down and take responsibility.

Using the Road

Motorists and horse riders both have a right to use the road. They also share a responsibility to consider the needs of each other. When you are riding on a road you should:

- Wear protective headgear to current approved standards;
- Give clear and decisive signals;
- Read the appropriate section of the Highway Code;
- Keep away from busy roads;
- Ride on the left hand side of the road;
- Wear a high-visibility hat band or cap cover and a high-visibility waistcoat or tabard;
- Use reflective leg bands on your horse. Because they are constantly moving they attract drivers' attention. Ideally use them on all four legs, but if using two put them on the outside legs nearest the road;
- Use either a tail guard or fluorescent rug at the rear of the horse as this is the most vulnerable area;

- Do not ride more than two abreast and go in single file on narrow or bending roads;
- Avoid riding after dark or in foggy conditions;
- Do not take a mounted group of more than eight riders on the road;
- Pass pedestrians and cyclists slowly and take extra care passing walkers and dogs.

Further Safety Hints

2 February 2010

~ Ensure your riding hat is to standard PAS 015 or BSEN 1384.

~ **Before Riding** it is important to carry out routine checks of your saddle and tack, not only for the benefit of your horse's comfort, but also to ensure safe riding. If your saddle or tack fails any of the checks below then have it repaired or replaced before you ride:

- _ Check the saddle for any weaknesses or wear, including cracking
- _ Check the tree of the saddle is in good shape by squeezing the sides of the saddle together- there should be no movement. If there is, this indicates damage to the tree which could seriously damage the horse's back.
- _ Check the girth straps under the saddle flat to ensure that all straps and stitching are secure. Ensure that all stitching around the girth buckles are secure and that the buckles themselves are not damaged or bent. Check for any signs of wear and tear.
- _ Check the bars which hold the stirrup leathers to make sure they are secure.
- _ Check the stirrup leathers for wear and cracking.
- _ Check the bridle for any weakness in the leather such as wear or cracking. Check all stitching is secure and that all buckles are secure and not bent. Check the reins for weakness, wear or cracking and again ensure stitching is secure. Check the bit for any dirt or rough edges that may damage the horse's mouth.

Tail cutting- Clifton Area

A further tail cutting incident took place recently in the Clifton area where one of the suspects alighted from a vehicle and approached a black horse in a field. Using an unknown cutting tool he removed a large amount of tail hair from the horse before being disturbed by the owner. The offenders reversed at speed along the road whilst being chased by the owner. It takes up to three years for tails to fully grow back- we would ask that people please report any suspicious incidents.

Stolen trailer- an update

Unfortunately there is still no news on the missing trailer taken from the Low Moor area. The trailer is a Cheval Liberte 2003 in light grey with a white roof, registration DE 1960. The jockey wheel is buckled and it had 30 bags of shredded paper inside. Please be aware that the trailer is broken and horses should not be put in it.

Feed stolen- Tintinhull

Approximately £200 worth of feed was stolen from a farm in Marsh Lane, Tintinhull. Other items stolen included 6ft x 4ft rubber stablemats, 2 chains (used with lead ropes), 2 lead ropes and a quilted blue rug. We are currently awaiting details of any further items.

Food bins stolen- Martock area

Food bins have been stolen from a location in Foldhill Lane, Martock. Other items also stolen include an electric fencer, a horse rug, 2 buckets, wheelbarrow, pitch fork and 2 head collars. The property from which they were stolen is a stable block accessed along a private road from where entry can only be gained via a locked wooden gate. The offenders attended the premises in a vehicle which they used to ram the gates open to gain access.

Suspicious vehicle seen in Halifax area

A black Nissan Navarro, part registration number ???SAM, has been seen in the Halifax area. It was driven into a livery yard where the suspects asked for prices on the livery. The boot of the vehicle was already open ready to take the items, but the men made off when confronted. Both men had Irish accents- the first male was described as white with blond hair of slim build and gaunt appearance; the second was described as larger build and around 5ft 6in in height.

Accident caused by loose horses

Recently a man driving a van through a Bradford Estate was confronted by two loose horses which had run from a main road towards his vehicle. One of the horses skidded and dived on to the front of the van where its foot went through the windscreen narrowly missing the driver. The horse broke free and ran away in a distressed state. Police and Horsewatch members are working hard to combat the problem of loose horses, particularly in the

2 February 2010

Holmewood and surrounding areas. Loose horses can be a danger and can cause major collisions so we advise that fields and fences are properly maintained and that gates are securely locked. Remember your horses are your responsibility. If you want to stop tethering, a list of grazing land available to rent is obtainable from local councils- please ask for details. All bids have to be in by February 2010.

Stop saddle theft

Help yourself, help your livery, help the Police! Postcode your saddle/bridle with our FREE tack marking kit. Micro chipping £9.95- **+This is the chip that sits in the tack that helps the Police to get your tack back!+**

Registered proof of ownership:

- ~ Could reduce insurance costs
- ~ Dramatically reduces the risk of theft
- ~ Aids recovery of stolen saddles
- ~ Makes it extremely difficult for stolen saddles to be sold. We would also advise:
- ~ That you keep a comprehensive list of tack and equipment
- ~ Keep records up to date and in a secure place
- ~ Explore whether it is possible to store tack in a different area away from where you stable your horse
- ~ Check and double check that you have locked everything securely before you leave your property
- ~ Do not feel guilty about being suspicious of people or reporting suspicious incidents to the Police

[WELCOME TO SHROPSHIRE COMMUNITY MESSAGING - Shrewsbury - Shropshire Horse]

We've had a report of two males acting suspiciously around horses in the Stottesdon area of Bridgnorth on the mornings of 19/20 January. It is believed these males were driving an old style blue pickup with a registration suffix similar to FNZ 0084N 200110.

In two separate incidents, around 22/1, one in the Bings Heath area of Shrewsbury and one in the Duddlestone Heath area of Ellesmere persons unknown have interfered with padlocks and tried to lift gates of hinges to fields that contain horses 0379S 220110 and 0224N 230110.
