### **Be Deer Aware - Road Safety**

As autumn approaches, the Highways Agency and partners in The Deer Initiative are reminding drivers to watch out for deer, particularly at dawn and dusk.

Every year, people are killed or injured in road collisions with wild deer around England. The Highways Agency has recorded over 2,000 deer-vehicle collisions since January 2009 on the motorway and A-road network in England alone.

The periods of highest risk are autumn and spring, particularly around dawn and dusk. The Deer Initiative estimates that there could be up to 74,000 deer-vehicle collisions every year in the UK, around 80 per cent of which are in England.

A key to reducing the number and severity of these incidents is to get drivers to be 'DeerAware' to slow down and watch out when they see deer warning signs at the roadside.

#### **Advice to drivers:-**

- When you see deer warning signs, check your speed and stay alert.
- If your headlights are on, use full beams when you can, but dip your headlights if you see deer as they may 'freeze'.
- More deer may follow the first one you see.
- Be prepared to stop. Try not to suddenly swerve to avoid a deer. A collision with oncoming traffic or another obstacle could be even worse.
- If you have to stop, use your hazard warning lights.
- Do not approach an injured deer, it could be dangerous.
- If you collide with a deer (or witness a collision) and someone may be injured, or if vehicles or deer in the road are a risk to road safety, then you should treat this as an emergency and ring 999 for the police or ambulance service immediately. You can use an Emergency Roadside Telephone if one is available.
- To report any injured deer please ring the RSPCA 24-hour cruelty line on 0300 1234 999.

Dr Jochen Langbein, project leader for the UK Deer Vehicle Collisions Project at The Deer Initiative, said: "As days get shorter in the autumn, busy traffic times coincide with dawn and the early part of the night when deer are most active and hardest to spot. In wooded areas in particular, there may be very little warning before one or several deer bolt across."

## Hampshire Horsewatch Bulletin

(Incorporating Information From Around The Country)

Date 12 October 2010

National Equestrian  
Crime Database

[www.necd.org.uk](http://www.necd.org.uk)

The database went live on the 1 August and the official launch was on the 16 September. The launch was attended by representatives of the equine press, veterinary profession, police and Horsewatch schemes, a leading equine insurance company, leading equine charities, known equine personalities.

The database is designed to help the equine community protect their property, get it returned if the unfortunate happens and it is stolen but later found.

The front page of the web site now has a 4 minute introductory video which explains to the viewer what NECD is all about.

NECD is currently offering an annual membership to the scheme for £10 instead of the standard price of £35. This offer will last until 31 October 2010 when the price will revert to £35.

The scheme works on the basis that registered property entered into the database must be uniquely identifiable i.e. post code, serial number, micro chip number, freeze mark

**This aligns to the Horsewatch recommendation to post code, uniquely reference your property.**

**This bulletin will refer to tack being stolen, very few items will be uniquely marked. This leaves the opportunity of identifying those items as less than minimal!!**

**Now is the time to get all your property marked, post coded. Seek out your Horsewatch or local police to find out if they can provide you with a tack marking service or can provide you with the equipment to do it yourself.**

**Theft - horse rug - Totton Area, near Southampton**

**Crime Ref: 44100418021**

Between 1800 . 2100 on 02/10/10.

Blue "Amigo" 5 foot rug - Had postcode on it in black marker pen. SO40 9FN

Also had an older faded green postcode on it. Value is £50

**Criminal damage/poaching - Wallers Ash Drove Road - Micheldever**

**RMS: 44100419566 – 26/09/10 – 02/10/10**

Between the times and dates shown, suspects smashed through a set of steel five bar gates and gained entry to the land, believed for poaching purposes.

Wheel tracks found at scene show the width of the wheelbase of the vehicle involved to be 1.3 metres approx. The tyres fitted appear to be wider than standard. Due to the size of the wheelbase, the vehicle involved may well be a small 4x4, either a Suzuki or Daihatsu. Paint samples recovered are very dark grey, possibly metallic. It is known that poachers will reinforce the front or rear of their vehicles with bull bars or steel girders. Due to no other debris being found, it is suspected that the vehicle involved may have sustained slight damage to the corners.

Recent Intel shows that poachers are travelling to this area from across the HantsPol area and also from surrounding counties.

If any small 4x4s are seen with damage and/or reinforcement methods to the front or rear, note details and pass to P.C 24208 Jon Radcliffe, at Bishops Waltham Police Station

**Do not disclose these details to public or to drivers of any vehicles spotted/stopped.**

**More September incidents - Hampshire**

- 24th, 10.30pm at **Upham**, possible poachers seen, using a **red Daihatsu Fourtrack van body**, registration taken as **H\*31 YMV**. The vehicle was fitted with a black wraparound bull bar.

**Dogwatch No. 528**

**1. Suspicious Lorry**

A suspicious 3 tonne white lorry with a yellow cab drove into a livery yard at Swallowfield on 28 September. The registration is thought to be MK 10\*\*. Two white men, with close cut hair were asking for scrap metal and they seemed to be assessing the yard with a view to returning later.

**2. Suspicious Ford Transit**

A **White Ford Transit HN56 JYW** with a yellow tipper body, with two men in it, drove into the industrial estate on a member's farm at Farley Hill and had a good look around the site. It stopped at a steel fabrication business in the yard and the men asked if any scrap was available. When they were asked to leave by one of the employees, one of them got out of the truck and threatened to shoot him with a catapult. Police were informed: URN 830 28th September.

**3. Suspicious Nissan Terrano**

A two tone green **Nissan Terrano Estate S680 BAV**, with two Irish males was seen at a farm in Towersey on 18/9/10. They were asking if they could use the land for rabbit shooting, but their eyes were everywhere.

**Dogwatch No. 530**

**1. Serious Deer Poaching**

In the early hours of Saturday 2 October deer poaching took place again on farms and estates around Oakley, Stanton St John, Worminghall and Elsfeld. Judging by the wheel marks and the damage to locked and chained farm gates, it appears that the offenders were driving a large 4x4 fitted with a bull bar and large quad type tractor

tread flotation tyres. They probably used a large dog during the crime judging from the footprints. Police advised: URN 269/021010.

**2. Ammonium Nitrate stolen**

A quantity of Ammonium Nitrate was stolen recently from a farm at Overton near Basingstoke. Farmers are advised to take extra precautions if they are storing ammonium nitrate, which can be very dangerous in the wrong hands.

**3. Good progress with Land Rover thefts**

Thames Valley Police has recently been involved with cross border operations. They supported Surrey Police in conducting a search of an industrial estate believed to have been involved in the theft of Land Rovers from across the south of England, including South Oxfordshire. The warrant was a success with 5 vehicles being recovered, and the discovery of a significant amount of cash.

Another joint operation with Hampshire police was also a great success. This led to two people being arrested on suspicion of theft of motor vehicles. Both these investigations are in the early stages and will be ongoing for some time.

**MESSAGE FROM THAMES VALLEY POLICE**

**Theft of tractors and other plant**

As you know, the theft of tractors and other Plant equipment has been a national issue for some time. We are making significant progress in reducing these thefts within the Thames Valley and have recently run a rural crime initiative called Operation SHOVEL where we recovered over £500 000 of stolen equipment. This is good news but we need to keep the pressure on and to do that we are promoting a scheme that we know will have a significant impact of reducing these types of thefts.

Thanks to some funding becoming available in the early part of this year, we have been able to invest £20,000 in promoting an industry and police initiated product called CESAR to members the rural community and construction industry. CESAR stands for 'Construction & Agricultural Equipment Security and Registration Scheme' which is a highly effective property marking system designed specifically to deter thieves from taking CESAR registered equipment. It is the only scheme in the country that is approved by the Association of Chief Police Officers

Anyone working within the borders of Oxfordshire Berkshire & Buckinghamshire is able to claim a 20% discount in the fitting of CESAR bringing the installation costs to under £90 per vehicle. Further benefits are that fitting CESAR often attracts a substantial discount off the vehicle insurance premiums - possibly even enough, from some insurers, to make the cost of obtaining CESAR a very shrewd purchase indeed. The scheme is strongly supported by the insurance industry, not least the National Farmers Union and the Country Landowners Association.

For full details on how it works, please look at the CESAR website ([www.cesarscheme.org](http://www.cesarscheme.org)) or call 01932 796788 or 796304 and they will give you the details. Alternatively you can find their details on our own force website ([www.thamesvalley.police.uk/crprev/crprev-business.htm](http://www.thamesvalley.police.uk/crprev/crprev-business.htm)) where good advice is also available on a whole range of other business crime reduction subjects.

Due to the current financial climate, this funding may not be available for much longer so we urge you to make

**HELP US HELP YOU BECOME A MEMBER OF THE "STOP THAT THIEF" COMMITTEE**

It's a sad fact that farm crime has seen steady increase in your area. One reason for this is the very successful %STOP THAT THIEF+campaign which was the brainchild of our Beaminster colleagues, and has been operating in the Bridport and Beaminster areas for over two years. The success of this campaign has displaced thieves to other areas. Together we can stop the rot and displace them further.

The idea is simple, alarms are purchased by the NFU using money donated by members of the committee. These are tried and tested alarms for use on farms, driveways and outbuildings.

Anyone can join and become a member of the committee, upon joining a donation is requested, a minimum sum of £50 has been suggested. These funds are held by our local NFU and are used to buy the alarms. The funds and alarms remain the property of the committee and are deployed by the police at their discretion, basically targeting hot spots etc.

The aim is to have all the alarms deployed all of the time. Members are also free to purchase alarms through our Dorchester NFU at a reduced cost.

This is tried and tested and proven to work. Don't delay, join today!

**\*\*\* Good News \*\*\* 11/10/2010**

There has been a good result in our Stop That Thief campaign. A premises in the Holt area The owner whom participated in the scheme was alerted by the alarm and went up to the yard disturbing offenders who made off empty handed. He had already decided to purchase the system and is happy to recommend it to anyone not already in the scheme or not got round to joining

**Attempted theft**

Please be aware that during the very early hours of Wednesday 13 October, on Innsworth Lane, Longlevens, Gloucester, thieves attempted to steal a horse using a transit van and a horsebox. The males were disturbed by the landowner and left the scene leaving the horse loose in the lane. The horse was not uninjured and was returned to its owner - Everyone needs to be aware of this incident.

Please take extra care with your animals and leatherware - remember Stow Fair is next week!
